

COVID-19 update

As the COVID-19 situation develops, we are committed to adhering to the advice provided by local and international authorities, applying a best practice and proactive approach.

In the interest of health and safety as well as business continuity, the majority of our staff will be working remotely as of Friday 20th March. As a proactive measure to ensure our business continuity, we have already successfully introduced remote working for up to 50% of employees. Therefore, we are confident that we are well equipped and in a strong position to manage this new development.

We have invested in the technology and training to allow us to operate remotely and therefore would like to reassure you that all the necessary steps have been taken to ensure that our service to you operates with as little impact as possible.

During such unprecedented times, we would like to take the opportunity to thank you for your trust in us, and would like to reiterate that our priority is the health and well-being of our staff and our clients, whilst endeavouring to continue to deliver an uninterrupted service to our clients.

We will continue to monitor the situation closely, and will provide you with updates as appropriate.

Should you have any further questions, please do not hesitate to contact me or a member of the team directly. As a reminder, our contact numbers are available on the LGT Vestra website:
